

# Tegernsee International Mountain Film Festival

## CALL FOR ENTRIES

1. The City of Tegernsee – in collaboration with the German Alpine Club (Deutscher Alpenverein), Bavarian Public Broadcasting (Bayerischer Rundfunk) and Tegernsee Valley Tourism (Tegernseer Tal Tourismus GmbH) – presents the **8th Tegernsee International Mountain Film Festival** from 20 – 24 October 2010.
2. Entries to the competition can be submitted in the following four categories:
  - 2.1. **Mountain Experience – Alpinism, Mountain Sports, Adventure**  
(feature films, documentaries, short films, reportages, portraits, educational films)  
Central to these films is a sportive encounter with the mountains – the depiction of achievements and personalities from the various disciplines of mountain sports.
  - 2.2. **Mountain Nature – Landscape and Environment**  
(feature films, documentaries, short films, reportages, portraits, educational films)  
Welcome are all submissions concerning themselves with natural mountain environments and their unique landscapes as well as environmental preservation, protection and sustainable development.
  - 2.3. **Mountain Life – Culture and Science**  
(feature films, documentaries, short films, reportages, portraits, educational films)  
Films in this category approach encounters between people and mountains from an ethnological and cultural angle; they emphasize the valence of the mountains as a symbol and show people, history, society and environment in their special relationship to them.
  - 2.4. **Extra: Trend Sports in the Mountain**  
(feature films, documentaries, short films, reportages, educational films)  
The 'Extra' category annually changes its thematic focus and this year is dedicated to trend sports in the mountain.  
  
(In 2011, the thematic focus will be: Water in the Mountains - full of energy, wild and idyllic, rapid and serene, a space for sports and contemplation.)  
  
Works that have been produced before 2007 will not be accepted to compete in categories 2.1, 2.2 and 2.3. Category 2.4 has no such restriction.
